

Servicer Oversight, Simplified.

Automatically validate servicer fees and investor reporting information with Integra ServicerConnect®. Transform Servicer oversight from a necessary chore into a strategic advantage. One platform for insights over all your portfolio.

MULTIPLE SERVICERS, ONE PLATFORM FOR THE ENTIRE PORTFOLIO

“With ServicerConnect, our team can now spend more time on the Servicer relationship analysis than playing police with data.”

— VP Subservicing Oversight Billing & Claims, Leading non-bank servicer

Faster Insights with Real-Time Analytics

Get down to the details faster by cutting out time spent on wrangling data and validating amounts. Produce revenue reporting over verified economics and run modeling of Servicer scenarios for deeper insights.

- Centralized ‘Data Hub’ for multiple Servicers
- Automated data consumption and validations with notifications
- Revenue reporting over verified economics at loan-level
- Audit-friendly servicer oversight reporting and metrics
- Model Servicer scenarios leveraging historical data
- APIs to connect to your favorite data warehouse and analytics tools

Enterprise Capabilities on Your Schedule

Why trust a critical business process to multiple disconnected applications? Or Excel? It's time to drop the spreadsheets and get a servicer oversight solution that's built for the enterprise. Select your level of Servicer integration with Integra ServicerConnect.

LEVEL 1: EXPANDED OVERSIGHT, LESS EFFORT

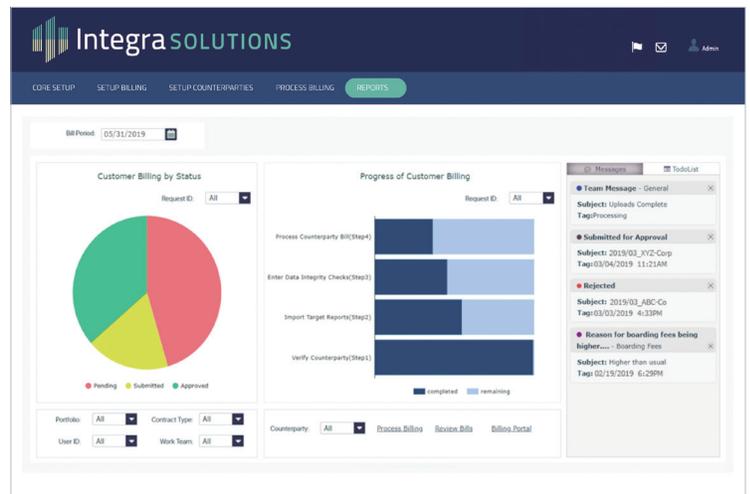

Get immediate lift by consolidating Servicer data. **Integra ServicerConnect** delivers multiple key features for you and your oversight and relationship teams:

- **Automated data aggregation:** Bring in data directly from your data warehouse, bank statements, general ledger, Black Knight, Sagent, and other data sources.
- **Simplified oversight and integrity checks:** Certify fees and billing totals at loan level, across your entire portfolio.
- **Revenue reporting with verified economics:** Get a comprehensive view of your entire portfolio's performance.

LEVEL 2: ACTIONABLE MODELING AND METRICS

Turn oversight into a strategic advantage with enhanced modeling and metrics for your high-value (or high-touch) Servicer relationships. Run your own models and what-if scenarios over historical data using **Integra ServicerConnect**.

- **Certainty.** Recreate Servicer bill totals from loan-level data for enhanced audit and controls
- **Insight.** Model Servicer scenarios for a deeper understanding of the relationship
- **Reduced Risk.** Audit trails, consistency, and transparency
- **Value-Added Data.** Unified, verified data set allows for deeper analysis
- **Agreement Modeling.** Run 'what if' economics on service agreements before committing to servicing contracts
- **Integration-Ready.** Push data to data warehouse, ERP, or analytics tools with a growing library of APIs and connectors

You'll see the benefits of Integra ServicerConnect in weeks, not months. Designed for quick deployment, ServicerConnect offers rapid adoption without overwhelming your team with a complicated install.
